THE CHOICE IS SIMPLE

You don't have to be an expert to choose the perfect treadmill for your small commercial gym, hotel or staff workout area. For over 35 years, PaceMaster has been a leader in manufacturing high quality treadmills with industry leading reliability and value.

- **Outstanding Quality**
  Designed and manufactured in the USA and built on a new heavy duty-platform, the Platinum ProClub offers exceptional durability and reliability.
- **Enhanced Safety**
  Utilize countless safety features that enable a safe and secure workout.
- **Unsurpassed Return on Investment**
  An unmatched level of quality, reliability, and technology at an unbeatable price.
- **Maintenance-Free**
  With a maintenance-free belt and deck, and an industry leading warranty, we guarantee your treadmill will always deliver comfortable, worry-free performance.
- **Easy to Install and Operate**
  Not only is installing the Platinum ProClub a breeze, but the user-friendly controls also make it easy to use.
- **Exceptional Support and Service**
  All of our parts and services are available nationwide for your convenience.

AND THE VERDICT IS...

"When I took on the task of selecting a treadmill for our physician's workout room I had a limited budget to work with. PaceMaster offered me an economical and maintenance free treadmill combined with a company heritage of consumer value."

Dr. Steven W. Domnitz M.D.
Chilton Memorial Hospital

"In the course of running a personal training studio I've used almost every kind of treadmill available. Some of the big commercial units are so intimidating and hard to use they frighten away our clients not to mention the cost. With PaceMaster we have a less expensive and user-friendly treadmill perfectly suited for three or four hours of daily use."

Mike Latorraca, CSCS, Owner
LifeCare Personal Training Studio

"After hearing again and again that our hotel's exercise room's treadmill was not working we decided to replace it with a PaceMaster. It was the best decision we ever made. We now have a reliable and easy to use treadmill for our hotel's guests."

Gary Pendleton, Manager
Holiday House Hotel

"In deciding on a treadmill for our officers training room we needed something that would handle tough workouts. I immediately thought of PaceMaster. I've used them for years and they've always been sturdy and affordable. Their new ProClub LT has all the features we need."

Sergeant Arthur W. Dages
Law Enforcement Officer

Proudly designed and manufactured in the USA since 1968

Dual Microprocessor Digital Control System
Allows countless programming options for unparalleled accuracy and reliability.

Control Console with 5 LCD Display Window
Allows you to choose a variety of customized programs and monitor your progress with an easy-to-use console.
